August 11, 2014

Subject: Message from the President

Dear Presidents,

We at FISTF are always trying hard to make sure we have the right information we need to advertise your national federation on www.fistf.com

Can you as a national federation please go to the site, check your information is right, give us updates on events for national federation events so we can update in the right way for all of you and continue to give your national federation the presentation it deserves and information for any locals in your area who wish to join your federation.

Please send us back as soon as possible any new logo you have, any new information regarding your federation board, events and national leagues so we can then keep information updated and present you all in a better way world-wide,

You will find the national federation information under the organisation tab across the top of the menu on WWW.FISTF.COM, there you will see a second menu open with 4 options, choose Europe or International to bring up your national Federation and then please report back to our General Secretary any changes needed and any new logo,

Yours sincerely

Joe Zammit Pavia

General Secretary/Vice President,

Cc FISTF Board of Directors
